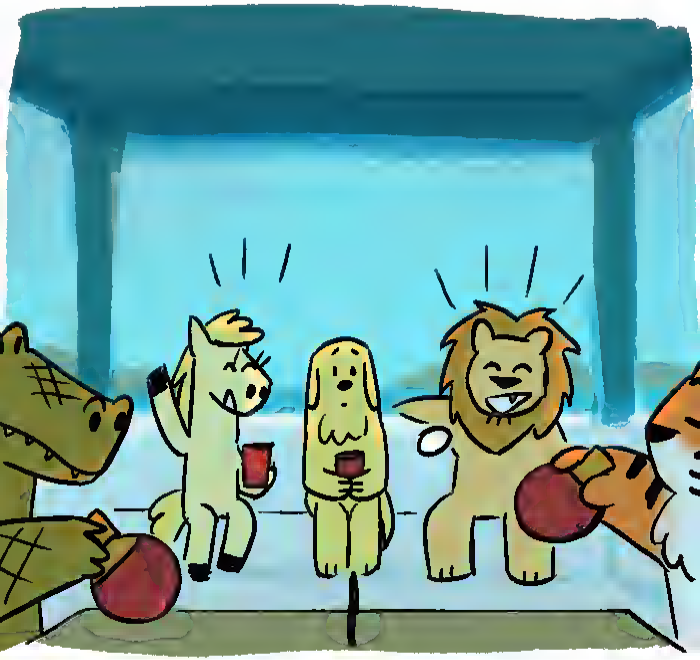
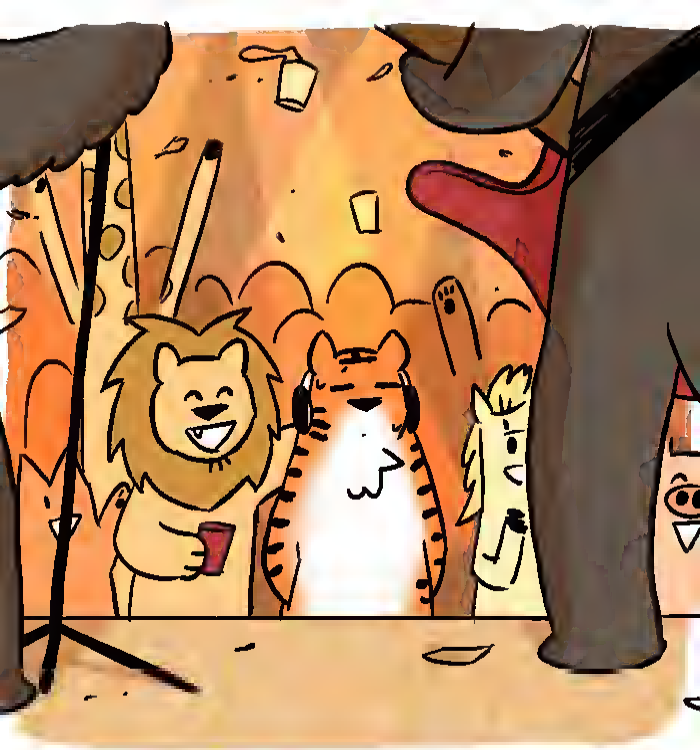
Why are you so boring?
You should come out and play more!



Why you always shut yourself in a corner?
You should come join us at the concerts!



Cof

Aww, why are you so lonely?
You should go on our foodie adventures!

ROAR STREET JOURNAL

If I always wanted to go out and have fun...
I'm not likely to sit in my room all day writing little stories and drawing comics.

Ahh I may not actually be from Cambodia but that is where my parents and culture have come from so as a proud Cambodian-American I'd like to add that our national bird is a Giant Ibris!

Readers from Cambodia!

The national animal of Cambodia is the Kouprey and the national bird is the Giant Ibis. Both animals are critically endangered. The Giant Ibis is a lowland bird that is confined to northern Cambodia. Threatened by habitat loss and hunting, its current population is estimated at 100 pairs or less.
